Welcome to HealthSCOPE Benefits

Take a few minutes to learn more about your plan.

At HealthSCOPE Benefits, our job is to support you and your employer as you engage in the health plan available to you and your dependents. We're here to guide you in your health care experience and help you live a healthier life.

Your new membership card is enclosed. It includes your member ID number and network information that provides important details your health care providers need to file claims for services you receive. Using your ID card also ensures you get discounted rates from in-network doctors, clinics and hospitals.

Make sure to show your new ID card on your next health care visit or trip to the pharmacy. You can carry your actual ID card, or you can access this card anytime by signing into the **HealthSCOPE Benefits app**. You can also add your health plan details to your Apple Wallet or Google Wallet.

Use your card to create an online account

Creating an account is easy. Just go to **healthscopebenefits.com** on your mobile or desktop browser, or download the **HealthSCOPE Benefits app** from the Google Play or App Store. You'll be asked to enter some information from your ID card, so have it handy.

Once you've signed in, you can:

- Look up in-network providers
- View your benefits and claims information
- Access commonly used forms
- Review your financial activity
- Find other tools for improving your health

Do you need to talk to us? Use the option that works best for you:

Call the customer service number on your ID card

Live chat by signing into **healthscopebenefits.com** or opening the **HealthSCOPE Benefits app**

Send us a message by going to **healthscopebenefits.com** or the **HealthSCOPE Benefits app** and select **Contact us**

We look forward to working with you!
